

**Pine Ridge Property Owners Association
Environmental Committee**

Builder's Name _____

Property Address _____

Unit _____ **Block** _____ **Lot** _____

I, _____, hereby give permission to
(Owner's Name)

the Pine Ridge Environmental Committee to access my property in order to check for wildlife protected under FLORIDA STATUTES, and to relocate any tortoises endangered by lot clearing. Before extracting the tortoise from its burrow, the Environmental Committee will obtain a permit (usually within 48 hours) from the Florida Fish and Wildlife Conservation Commission.

The protected wildlife is protected under the Florida Statutes as Species of Special Concern (68A-27.005FAC) and there are penalties associated with violations of the rule (372.0725FS and 775.083FS). If necessary, the Environmental Committee will inform the Owner and Builder(if any) that the burrows are to remain undisturbed as directed by the Florida Fish and Wildlife Conservation Commission for a period of usually 5 to 30 days in order to complete tortoise relocation. The Owner and Builder (if any) will be notified as soon as the relocation is complete.

There are **NO CHARGES** for these services.
